This was happened last October 6, 2010 with the Title “Obama Deception” (A facelift of Tyranny). After the film there’s discussion/reflection about the film and it went well because lot of participants cooperate about it. Another Film showing held last December 18, 2010 Title “Electronic for Dump”.

Acoustic Session

This event happened last October 12, 2010 with Steve Towson from Australia who performed his acoustic songs as well as with other local artist. This was supposed to be a benefit show for the Infoshop but unfortunately we didn’t receive any donations from it. But it’s ok because it was successful that we had a good reaction from the neighbors who watched the show.

Children's Party

A Party event and Art Show for kids last October 23, 2010. This is where the kids did some drawings in the street, pathways and sidewalk. The agenda of this is to reclaim the streets temporarily. Where kids had a free time to draw what they want and enjoy what they are doing. And then afterwards we prepared foods for everyone

Theatre Workshop

This was a proposed activity with our friend from Germany. This was a three session workshop for kids around the neighborhood. We did various games, acting style and also impersonating things and animals. This is to develop their skills and confidence to show their talents and how to interact with everyone around them. We held this workshop last August 21, 22 and 28, 2010.
